

## LOSBERGER HALLS AND TENTS

## SUPERIOR PRODUCTS AND EXCELLENT SERVICE

**Business:**

Leading Manufacturers of Temporary Clearspan Structures

**Profile:**

Losberger was founded in 1919. We have branches in USA, UK, France, Italy, China, Southeast Europe and over 50 international partners to supply our products on a worldwide basis and securing our global position. The number of employees averaged approx. 500 worldwide.

Long tradition in tent building and profound understanding of the users' demands have contributed to putting Losberger into its strong market position. Our modular construction system is unique on the market and the high quality of Losberger products has remained unequalled on the international market.

Our product range includes Tents and Lightweight constructions. Depending on requirements, they are available in clearspans up to 50 m and with a maximum side height of 10 m. All our products are developed in a unique modular component system, which guarantees a good variety of shapes, attractive designs, product flexibility, high resale value and all this at affordable prices.

In addition to our top quality products, our product package offers outstanding customer service, competent advice, prompt order processing and interesting financing opportunities.

Our Semi-permanent/ temporary structures will allow you a professional tent erection and dismantling during summer months.

You will get the possibility of opening new function areas for larger groups in the garden or provide additional space for semi-outdoor venues during rainy days.

**Quality:**

Losberger is known for its leading product technology and quality, which we ensure through our qualified employees as well as through our modern administration and production facilities. Our Export experiences especially in the Hotel, Golf and Country Club Segment will be confirmed through references worldwide.
